Dear Sir,

I thank you for your letter of 12/3/74
It was desappointing for me.
The Warren Commission exhibit 385
showing the trajectory of the magic
bullet is just a farce. I read most
of the books on JFK murder but
in no one the authors made attempt
to explain the contradictions in
ballistics. NRA refused to explain. On
Sept. 12, 74 I wrote a certified letter
to FBI c/o the President with the same
question; no answere. Recently former
senat. Clark told that U.S. is run
by military. Are they behind all these
political murders? That oswald was
federal agent is not important. In 1912-
Stolypine (prime-minister in Russia)
was murdered by Bagrow who was a
secret agent of the police (ochrana). Sto-
lypine was promoting the agricultural
reforms having the aim of pulling

out the empovrished peasants out of communes or collectives (obshina) since 1861. The landlords and industrialists preferred to have cheap labor.
It is obvious that Warren commission has had the pistol at his back by Dr. Strangelove (military). No paper dares to print the trajectory of the magic bullet; can you? Or is selling of the books bringing in more money? Why in the courts was never been asked from where the money came for trips by Oswald or Bremer?
Warren report was a fraud; let the authorities explain technically the exhibit 385. I am appalled by the garbage gale us governing and dread to see this wonderful country to happen what happened in Russia in 1917

Very truly yours

N. Kotikov

Here are the facts about the S. E. affaire. There are 2 distinct parts.

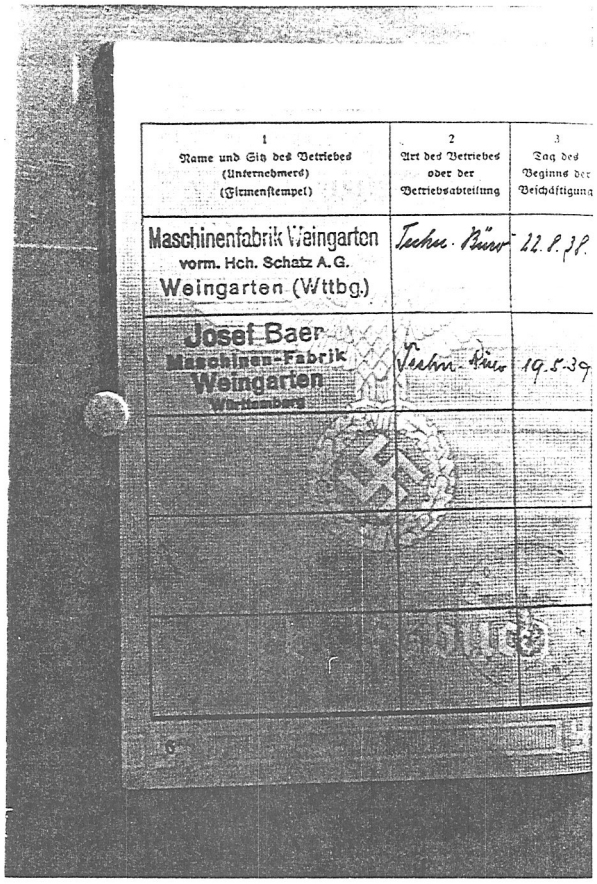
1) In 1930-38 I was working as design engineer in ~~war~~ World famous war plant Edgar Brandt in Paris (France). In 1936 it was nationalised as other aviation and war industries. I put an add and was contacted by a gestapo man who was posing as representative of gemon industries. He introduced me to DWM (Mauser) and Rheinmetall-Borsig (Düsseldorf). They mad phoney contracts with me. After they got from me all the information they arrested me (in Stuttgart) and were ready to torture me; plunging the head in a water tank containing chemical - making you sick. In Chili the military put up by US (CIA) use excriments. In the last moment they found on me the copy of a letter to goering protesting ~~the~~ machinations of the gestapo upon me.. I was jailed for 3 months and one week before the war started (Sept. 1, 1939) was expelled to Yougo-Slavia. Have a bit of documentation on the above affaire.

T. O. P.

2) From Yougo-Slavia I went to Greece in bribing the customs officer. ~~In~~ At that time I have had to travel with a Nansen Passeport (piece of S...) ~~One~~ I left greece as mechanic on a grieek frighter (St George). There I met S. E. son of the owner of the Company which owned this boat and many others. S. E. succeded in coming to U.S. in 1940. He was "director" of the Cie "A. Macedos & S. Economides 8, rue Sirmeli - Athenes. Later he blobbered out that he was a gestapo spy. He counted on german victory and hoped to get a post of a greek Quisling. He mad offer to me to enter into organisation. In the spring of 1941 he went to Cuba to fiell up a german spy (girl). Both came back to U.S. by illegal plane. I reported the affaire to major (1940) Chester Mueller 80, Broadway N.Y. of the war dept. About 1943 an agent of FBI stoped in my place (Pillow. Venango Phila) and questioned me for couple hours. He gave me hell of reporting to military but the FBI. From his questions I understood S. E. and his organisation were appreciated. About 1950 when I asked E. Hoover about the affaire he wrote me not to "dare to think" about. I wish to have a cut in the story; all you have to do to ask the permission for the file of S.E. Allan Weinstein was refused to access ~~of~~ to file 1 to A. Hiss and Rosenberg.

N. Krotikov

I shall give him the full name



1 Name und Sitz des Betriebes (Unternehmers) (Firmenstempel)	2 Art des Betriebes oder der Betriebsabteilung	3 Tag des Beginns der Beschäftigung
Maschinenfabrik Weingarten vorm. Hch. Schatz A.G. Weingarten (Wttbg.)	Techn. Büro	22.8.38
Josef Baer Maschinen-Fabrik Weingarten Württemberg	Techn. Büro	19.5.39

Last page of the "Arbeitsbuch" - I have the complet set and other documents.
